

Best Family Lawyer Belleville

Best Family Lawyer Belleville - Our company could be of assistance when the loss of inheritance is caused by a different person victimizing an elderly, vulnerable individual. The elderly are vulnerable to being fooled into changing their wills, making gifts, or marrying caregivers because of their total dependence on different individuals. If this occurs, our company can help dispute the changes done to the will.

We can help the family get the powers of attorney through court, within some situations whereby family members can no longer understand how to maintain their health or manage their account.

When someone becomes unable, we follow the procedures and laws under The Substitute Decisions Act. We apply to court to allow the appointment of our client as statutory guardian of the indisposed person. Next, the elderly individual has the comfort of knowing that their personal care, finances and property are being handled by the selected member of the family.
