

Impaired Driving Belleville

Impaired Driving Belleville - Patents are often the most valuable assets which a business could have. It is very important that the patent portfolio is secured and maintained in order to make certain that the company can continue to succeed and even expand.

We have amongst the largest and most well respected patent teams with broad skill in procuring patents and protecting them. Moreover, we can assist our clients in leveraging patent matters with efficiency and skill.

Our team consists of various professionals, including patent lawyers, patent agents, and technical consultants. Several of our technical consultants even have a Ph.D in either an engineering or scientific discipline. Some examples of the areas in which we have knowledge are aerospace, chemical, biomedical, civil, electrical, computer science, metallurgy and material science, industrial, mechanical, biochemistry, biomechanics, biotechnology, food science, chemistry, endocrinology, genetics, life sciences, immunology, neuropsychology, microbiology, neurophysiology, molecular/cellular biology, organic chemistry, pharmacology, toxicology, physiology and physics.

Making use of our extensive variety of technical skills together with a combination of acute business acumen, we can provide a clear and comprehensive understanding of an assortment of technical complexities. Our expertise, skills and experience will enable us to help our clients achieve optimal patent asset value. We are there to offer effective recommendation and service about licensing agreements and the negotiation of technology transfer along with the enforcement of intellectual property rights.
