In class action cases, our Class Action Group would navigate during all the stages of the dispute. We help you understand the pressures that whichever class action lawsuit could put on either the defendants or the plaintiff class. Defendants in these types of cases can be stressed by time and money. We have methods in order to minimize disturbance, and to move the issue to successful resolution in as efficient and timely a manner as possible. Our very first technique representing defendants is to try to limit the action or have it dismissed entirely at the pre-certification phase. We have a track record of doing this for our clients, which means that our clientele are let out of actions without ever having to take part in a certification hearing. Our aim is to resolve the litigation and avoid the need for a class action trial. We have been successful at negotiating favorable class action settlements for many of our defendant clients. This gives them peace of mind and frees them from future claims of unknown class members.

For the plaintiff class clientele, our very first step is to correctly limit the class while drafting the claim in such a way as to ensure that the action is certified early on in the process. Our skill enables us to determine whether class action or large losses proceedings are most appropriate and to acquire the very best outcome in either case.
