

Personal Injury Law Firm Belleville

Personal Injury Law Firm Belleville - Our Technology Law group can offer you with innovative legal solutions, whether your business is in the process of starting up, on the verge of commercializing a new technology or already a successful enterprise. Our firm's value-based services would help you develop and market innovative products.

Our lawyers offer help on a wide range of legal matters which affect the technology firms these days. This can comprise all stages within the development of your technology business, particularly securing patent, copyright and trademark protection. We understand the value of your intellectual property. We will carefully craft joint venture agreements and financing arrangements to ensure that you have the flexibility to manage your research efficiently and continue to commercialization. We pay special attention to strategic alliances, licensing agreements and production arrangements to be able to ensure that you obtain the maximum benefit possible from your intellectual property.

We give special consideration to business arrangements for technology services. Assistance consist of preparing licensing agreements, software implementation and development agreements, software support and maintenance agreements, data centre and service bureau agreements, distribution and marketing agreements and hardware purchase and maintenance agreements. We conduct project reviews and rescues, and offer advice regarding the legal aspects of e-commerce initiatives. We also offer guidance through the negotiation and implementation of agreements for the procurement of technology software and services.
