

Immigration Attorney Belleville

Immigration Attorney Belleville - There is an increasing concern about a lot of privacy issues today and the complexity of new privacy legislation. The people working in the field, plus the organizations included in biotechnology and information technology have different legal needs. So do people who depend on technology to secure a competitive advantage for their business, or simply to function in everyday operations. Our Technology, Privacy and Intellectual Property lawyers assist clients in maximizing the use of intellectual property in their business operations. Our objective is to create value for our clients.

We provide a full range of legal services handling matters associated to intellectual property, privacy technology and biotechnology from a local to an international basis. Our assistance comprise copyright, privacy, trade-marks, commercialization, domain names, e-commerce, information technology, intellectual property and operational matters.

Intellectual Property Assistance:

- Copyright
- Industrial Designs
- Licensing
- Trade Secrets
- Trade-marks

On a regional, national and international scale, we can help in obtaining, maintaining and enforcing intellectual property rights. We service clients in the automotive, entertainment, manufacturing and telecommunications sectors.

Technology Services:

- e-commerce initiatives
- development, protection, distribution, licensing and sale of technology
- acquisition of technology

We advise venture capitalists and financial institutions in structuring loan transactions to both users and suppliers of technology. We also advise businesses regarding confidentiality agreements, internet usage and computer system policies, consulting agreements, outsourcing arrangements, source code escrow, employment agreements, joint ventures and strategic alliances.

Privacy Services:

We help employees, organizations, suppliers and contractors to guarantee compliance with privacy legislation. We assist organizations with their personal information management systems: drafting comprehensive privacy procedures and policies; advising with respect to the use, collection and disclosure of personal information. We assess Privacy Impact for clients' organizations or businesses.
